## **Peter Andringa**

Journalist • Developer

## **WORK EXPERIENCE**

The Wall Street Journal Graphics Intern

Scraped and analyzed data, built interactives, and designed graphics for The Wall Street Journal's Business & Finance section, in both print and online.

The Guardian Visuals Intern

Covered the 2018 midterm elections for the Guardian's Visuals team, building much of the election backend and live results page. Additionally, produced post-election analyses and other visual stories.

**NBC** Multimedia Journalism Intern

Produced videos, graphics, and interactives for NBC's national newsroom, creating reusable digital tools and new reader experiences across NBC's 15 local websites.

The Delta Center Media Intern

Helped run the Delta Center's "Most Southern Place on Earth" teacher-training workshops by coordinating logistics, taking photos and video, producing multimedia stories, and designing printed marketing.

**CustomInk** Software Engineering Intern, eCommerce

Entirely rebuilt an inventory management system, improving load times and reliability of the system using MySQL, MongoDB, Ruby on Rails, and Javascript.

**PORTFOLIO** 

To Rock the Charts in 2019, Bands Need a Little Help Data, Interactive

Contributed data and visuals to a story showing how bands are gaming the Billboard charts — scraping data, building an interactive, and designing a full-width graphic for print.

Gun violence has sharply declined in the's Bay Area. What happened? Interactive

Led design, development, and data visualization for the first story in The Guardian's series about gun violence in the San Francisco Bay Area.

**2018 US Midterms: Live Results** Interactive, Data

Designed and built portions of The Guardian's elections stack, including backend data parsing, a staging environment, front-end React components, the ticker, and post-election graphics analyzing results.

Facebook, the New Frontier of Political Ads Writing, Interactive

An investigative story and interactive about the habits of political advertisers on Facebook, before the release of the company's Ad Archive API.

**EDUCATION** 

University of North Carolina at Chapel Hill B.A. Journalism, Computer Science (GPA: 3.93)

Double-major in journalism and computer science, minor in entrepreneurship. Relevant coursework includes Interactive Journalism, Big Data Ethics, Data Structures, UX design, and Multimedia Storytelling. Currently writing a thesis about news data visualization in AR.

**Duke University** Robertson Scholar

Member of a selective scholarship program as a "dual citizen" of both UNC and Duke, studying and living at both schools. Coursework: Algorithmic Journalism, Politics and Media, Fact-Checking, and Profile Writing.

Thomas Jefferson High School for Science and Technology Software Engineering

Attended a selective STEM high school, graduating with a concentration in software engineering.

RESEARCH

**Duke DeWitt Wallace Center for Media and Democracy** Online Gatekeeping

Collaborated with Dr. Phillip Napoli on research on the spread of local news content on Facebook, through exclusive data-sharing partnerships with the company.

Media and Journalism Emerging Technologies Lab AR Storytelling

Developed new storytelling technologies in Prof. Steven King's lab, including a photogrammetry tool, AR experiences, and a scavenger hunt app. Responsibilities included product management, research, design, and development.
